

## *Homework 3*

*Due date: Dec 3*

Draw tree diagrams for the sentences below. Indicate every movement and do not use triangles. Discuss how theta-role and Case assignment in each of the sentences. (N.B. While not every DP has a theta-role, all of them has Case.) For any adverb, decide whether it is a sentential or a VP-adverb.

1. John obviously can't cook.
2. The kids from Ann's school easily solved the exercise.
3. The train may have finally arrived.
4. I honestly don't know the answer.
5. I do not like old films.
6. Peter is cooking in the kitchen.
7. The cookies must have been eaten.
8. The guests left the party without a word.

Why would the following sentence be problematic for the analysis proposed for vP-structure? *He may not have arrived.*
