

graduation

Graduation involves several steps. You have to

1. complete all your courses, that is, obtain an “absolutorium”,
2. [submit a thesis title](#) by the given [deadline](#),
3. satisfy all language requirements,
4. register for the final examination in Neptun (even if you are retaking it),
5. [register the main topic and subsidiary topic of your final examination](#) (only BA students),
6. prepare, submit, and defend a [thesis](#),
7. and pass the [final examination](#), including the defence of your thesis and talking about randomly selected [topics](#).

Please observe the [deadlines](#) carefully, missing any deadline usually means your final examination must be postponed to the next term.
